WORK EXPERIENCE

FrontEnd Developer Isoft Studio's

09/2023 - 04/2024

Lahore, Pakistan

Achievements/Tasks

- **Developed Responsive Web Applications:** Created user-friendly, mobile-responsive web applications using HTML5, CSS3, and JavaScript frameworks (React, Angular)
- **Improved Website Performance:** Optimized web page load times, reducing them by up to 30% through efficient coding practices, image optimization, and lazy loading techniques.
- **Enhanced User Experience (UX) :** Implemented intuitive UI/UX designs that increased user engagement and session duration by 20%.
- **Cross-Browser Compatibility :** Ensured consistent rendering and performance across different browsers and platforms, improving the site's accessibility and user base.
- **Maintained Version Control :** Managed code versioning with Git and GitHub, ensuring a seamless development workflow and team collaboration.
- **Contributed to Open Source Projects :** Actively contributed to open-source projects, improving coding standards and receiving recognition from the developer community.
